In a difficult environment, the expanded group delivered resilient results and completed the process of creating one of Europe's leading bancassurers

La Banque Postale's 2020 results

2020 was a unique year for La Banque Postale, shaped by the integration of CNP Assurances and other transactions that redefined its structure, and also by the Covid-19 health and economic crisis. La Banque Postale is launching its 2030 strategic plan with the objective of becoming France's favourite bank.

The plan is organised around three priorities:

- Become one of the best banks in terms of customer satisfaction and join the top 3 in 2023 for remote services;

- Embrace the just transition movement and launch a community engagements platform;

Place employees at the centre of the strategic plan by improving the employer brand Net Promoter Score by 20 points over the period to 2025.
